* Defined as an adequate or adequate-plus rating on the Kotelchuck Adequacy of Prenatal Care Utilization Index.

† Percents are based on live births with known prenatal care initiation and adequacy.

CI: Confidence Interval.

Note: Group totals might not equal overall total because some births were missing group information. For example, births with missing maternal race were excluded from the maternal race analysis.

Data Source: Birth certificate datasets obtained from the Office of Data, Research and Vital Statistics, Maine Center for Disease Control and Prevention.
